## Verse 1

When I close my eyes, I see a door  
I've been here before  
This place of soul  
Where I am whole  
Connected, feeling, love

Stay within and open up that door  
let my spirit soar  
To a sacred space  
Where I touch the face  
Of love

What heals my heart  
And makes me whole?  
Acceptance, wisdom, grace  
The willingness to look within  
The courage to embrace

## *CHORUS:*

*And when I know this place of soul  
I'm always home inside  
It's here I touch eternity  
The doors are open wide  
On this sacred journey,  
Sacred journey,  
Sacred journey of heart*

## Verse 2

Breathe the breath inside this place  
Feel the wholeness in this space  
Creator's sacred art  
Found Inside my heart  
We are connected, feeling, love

Now I reach take the hand  
Someone I can understand  
Is just like me  
And I know that It is safe to be  
Connected, feeling , love

What heals my heart  
And makes me whole  
Acceptance, wisdom, grace  
The willingness to look within  
The courage to embrace

*CHORUS:*

*And when I know this place of soul  
I'm always home inside  
It's here I touch eternity  
The doors are open wide  
On this sacred journey,  
Sacred journey,  
Sacred journey of heart  
Come along, come along, come along*

Verse 3:

Every step that I now walk  
Has the power to unlock  
All The love within this earth  
Our own divine rebirth  
We are Connected, feeling, love

What heals my heart  
And makes me whole  
Acceptance, wisdom, grace  
The willingness to look within  
courage to embrace

*CHORUS:*

*And when I know this place of soul  
I'm always home inside  
It's here I touch eternity  
The doors are open wide  
On this sacred journey,  
Sacred journey,  
Sacred journey of heart*

*On this sacred journey,  
Sacred journey,  
Sacred journey of heart*

Come along, come along, come along.
